

Information Technology Professional Services

Microsoft, Oracle, IBM Databases

1. Business Intelligence (BI)
 - a. Development & Analysis.
 - b. Data Analytics.
 - c. Data mining.
 - d. Design Studio (BIDS).
2. Microsoft SQL Server
 - a. Programming: Stored Procedures, Views, Custom Views.
 - b. Replication.
 - c. Solution Provider (2000, 2005, 2008).
 - d. Integration Services (SSIS).
 - e. Analysis Services (SSAS).
 - f. Reporting Services (SSRS).
 - g. Management Studio (SSMS).
 - h. Dynamic Reporting.
 - i. ODBC, DTS.
 - j. Performance Tuning.
 - k. Data Integrity Assurance.
 - l. Multidimensional Expressions (MDX).
3. Data Warehousing
 - a. Data Analytics.
 - b. Data Mining.
 - c. Cubes.
 - d. Data Modeling.
 - e. OLAP.
4. Databases & Data Centers
 - a. Architecture.
 - b. Optimization.
 - c. Implementation and Integration of Interfaces for IBM DB2.
 - d. Log-Shipping, Back-Ups, Maintenance Plans, Monitoring.
 - e. Gridscale database load-balancing technology.
5. IBM DB2
 - a. DB2 UDB (Linux, UNIX, Windows).
 - b. DB2 System Administration (8, 9).
 - c. DB2 Performance Tuning.
6. Oracle Databases
 - a. Oracle (8i, 9i, 10g).
7. Sybase, PostgreSQL, MySQL, and P-SQL.

IT and Business Management

1. Interim Management of a Company or Department.
2. Performance Enhancement in Back-Office Operations.
3. Team and Project Management.
4. Interim CIO of a Company or Technical Director.
5. Review and Assessment of technical strategy to accomplish business goals.
6. Performance Benchmarks in Back-Office Systems.
7. Outsourced Product Management.
8. Review and Re-structuring for Organizational Development or Business Planning.

Mediation, Negotiations, and Counseling

1. Contract Review and Negotiations to Reduce Costs.
2. Business Guidance Counseling.
3. Corporate and Business Mediation and Negotiations.
4. Contract Negotiation, Construction, and Review.

Information Technology Professional Services

Microsoft programming languages

1. VB.Net, ASP.NET, C#, ASP, C++, ASP, HTML.
2. VBScript, JavaScript, VFoxPro.
3. Visual Studio, Crystal Reports.
4. Microsoft .Net Framework.
5. ADO.Net, Web Services, Distributed Programming.

Statistical Analysis and Modeling

1. Operations Research.
2. Management Science.
3. Statistical Analysis.

IBM Programming & Scripting

1. Java, Java Swing, J2EE (BEA, JBoss, WebSphere), JSP, Java Servlets, Java Mail.
2. Apache Struts, XML, Hibernate.
3. PHP, Flash, Perl, Python, Jython, Java and Ruby On Rails.
4. JMS (ActiveMQ, ServiceMix, Sonic).
5. Apache Web Server.
6. WebLogic, WebSphere, Tomcat, and Resin Applications Servers.
7. Application Upgrades to Apache or Jboss, or Java Optimization.

Network, Servers, and Storage Networking

1. Datacore, Compellent, NetApp, Juniper Networks, Foundry,
2. IBM (All Series & Blades),
3. Dell, EMC2, J-Boss, Apache, ATG, Veritas, Endeca and VMWare.
4. Virtualization Technologies.
5. High Availability and Disaster Recovery technologies and processes.

IT Security and Compliance

1. Database Security.
2. Certified Cryptographics Engineer.
3. Security Review and Analysis of software to Reduce Vulnerabilities.
4. Green Data Center Planning and Implementation.
5. HIPAA Security Compliance.

Other Servers and Products

1. VISIO, PowerPoint Server.
2. WSS & MOSS SharePoint Server.
3. Excel Services for SharePoint, Excel, MS Access.

Operating Systems

1. Linux (Red Hat, Suse, x64, UBL).
2. Sun Solaris (2, 4, 6, 8, 10).
3. Open Source (Apache, JBoss, MuleSource).
4. Distributed Programming (CORBA, RMI, SOA).
5. SCO Upgrades.
6. SMP Systems, Kernel Upgrades or Tuning on Linux.
7. Network or Platform Assessments.
